Beefsteak Tomato

- Plant in Sun (at least 6 hrs of sun)
- Space 24-36" (61-91cm) apart
- Grows 48-60" (122-152cm) tall by 36-48" (91-122cm) wide
- Water regularly and try to water early in the day so that plants will dry off before evening. Tomatoes prefer regular feeding once the fruit sets, but too much early in the season will grow a large plant with fewer tomatoes. Mulching helps ensure an even supply of moisture.

(Cut along dotted line for standard bench card size.)
