

Sweet Leaf Stevia rebaudiana

- Plant in Sun 🌞 (at least 6 hrs of sun)
- Space 18-24" (46-61cm) apart
- Grows 18-30" (46-76cm) tall by 12-18" (30-46cm) wide
- Stevia is vulnerable to cold temperatures, so set the plants out at least 2 weeks after your usual last frost date.
A little mulch around new plants will prevent rapid drying on sunny days. Bring indoors on cold nights.
