

Burpee Hybrid II Cucumber

- Plant in Sun 🌞 (at least 6 hrs of sun)
- Space 12" (30cm) apart
- Grows 8-10" (20-25cm) tall by 48-60" (122-152cm) wide
- Plant in full sun and well-drained soil. Water deeply once a week, applying at least one inch of water. The use of mulch can speed up growth by conserving soil moisture and maintaining a high soil temperature. Apply an all-purpose, vegetable garden fertilizer when your plant begins to set fruit. When planning the garden, consider growing cucumbers

vertically on a trellis, fence or other support.

(Cut along dotted line for standard bench card size.)
