

WonderStar Red Tomato

- Plant in Sun  (at least 6 hrs of sun)
- Space 18-36" (46-91cm) apart
- Grows 18-24" (46-61cm) tall by 24-36" (61-91cm) wide
- Best grown in-ground or in a large container with support of a trellis or cage. Plant in a sunny area and water regularly. Mulching helps ensure an even supply of moisture. Container plantings will dry out faster than plants in-ground. Tomatoes prefer regular feeding once the fruit sets, but too much early in the season will grow a large plant with fewer fruit.
