Crimson Sweet Watermelon

- Plant in Sun (at least 6 hrs of sun)
- Space 48-72" (122-183cm) apart
- Grows 15-24" (38-61cm) tall by 72-84" (183-213cm) wide
- Melons need a constant supply of water, and particular attention should be paid during Summer dry spells. They are rarely bothered by pests and disease. It’s best to rotate your melon crops each year, ensuring that you are not planting melons in the same spot each year.

(Cut along dotted line for standard bench card size.)
