

Sweet Leaf Stevia rebaudiana

- Plant in Sun  (at least 6 hrs of sun)

- Space 18-24" (46-61cm) apart

- Grows 18-30" (46-76cm) tall
by 12-18" (30-46cm) wide

- Stevia is vulnerable to cold temperatures, so set the plants out at least 2 weeks after your usual last frost date.

A little mulch around new plants will prevent rapid drying on sunny days. Bring indoors on cold nights.

(Cut along dotted line for standard bench card size.)
